

MUHAMAD IQBAL BIN ABD HALIM

Tel: 018-290 3540

Email: muhamadiqbaljob@gmail.com

Address: Jalan Kebun 40460 Shah Alam, Selangor.

Linkedln: www.linkedin.com/in/muhamadiqbalhalim/

Results-driven Computer Science graduate with hands-on experience in software engineering, web development, and data analytics. Proficient in Python, Java, C++, SQL, JavaScript, Node.js, React.js, and Vite. Dedicated to building scalable digital solutions, supporting digital transformation, and delivering high-quality results in fast-paced environments.

KEY SKILLS

- Office Suite: Word, Excel & PP
- Data Analysis: Python, Pandas, NumPy, Matplotlib, Seaborn, SQL, MongoDB
- Programming Language: Python, Java, C++, JavaScript, PHP, SQL
- Web Development: HTML5, CSS3, Node.js, React.js, Vite
- ETL pipeline and documentation
- Frontend/Backend Development
- Debugging & Troubleshooting
- Software Testing
- Application Development
- Technological Literacy

LANGUAGES: Malay (Native), English (Advance), Mandarin (Basic)

EDUCATION

- Oct 2022 - Dec 2025 Bachelor of Computer Science (Honours), Universiti Teknologi Mara (Kampus Jasin)
CGPA: 3.40
Award: Dean's List Award
- Aug 2020 - May 2022 Matriculation Certificate, Selangor Matriculation College (Banting)
CGPA: 3.63
Award: Dean's List Award
- Jan 2014 - Nov 2019 SMK Jalan Kebun, Sijil Pelajaran Malaysia (SPM)
Pure Islamic Science Stream, Arabic as an additional subject
5A's

RELEVANT EXPERIENCE

- Oct 2022 - Present Digital Solutions Developer (Protégé)
Namicoh Suria Sdn. Bhd., Subang Jaya
 - Collaborated with IT, Operations, Quality Assurance (QA), and Engineering teams to support digitalization initiatives and process improvement projects.
 - Gathered user requirements and developed web-based applications for company events, training management, and operational workflows.
 - Designed and implemented digital solutions for QA processes, including inspection tracking and training record management.
 - Participated in application testing, deployment, troubleshooting, and user support to ensure system reliability and usability.
 - Produced technical documentation and workflow specifications to support development, maintenance, and continuous improvement efforts.
- Sep 2025 - Dec 2025 Software Engineer (Intern)
Blue Ocean IT Sdn. Bhd., Petaling Jaya
 - Engineered and optimized ETL pipelines using Python and SQL, improving data processing efficiency.
 - Developed and debugged Python scripts and SQL queries to ensure data consistency and system reliability.
 - Collaborated within an agile team to design, test, and deploy enterprise-level applications.
 - Analyzed system architecture and produced technical documentation to improve workflow efficiency.

PROJECTS

- Feb 2025 - July 2025 Real-Time Vehicle Registration Plate Detection Using YOLOv8
 - Developed a mobile application for real-time license plate detection using YOLOv8.
 - Integrated Firebase for real-time data storage and reporting.
 - Improved detection performance through image preprocessing and model optimization.

July 2025 - Aug 2025	Task Management System - Developed a web-based task management system using Java, HTML, CSS, and SQL. - Enabled users to track and organize daily tasks efficiently. - Designed backend database for data storage and retrieval.
Mar 2025 - Apr 2025	Predictive Model for Student Attendance - Built a machine learning model using Python, Pandas, and scikit-learn. - Achieved over 80% prediction accuracy for event attendance forecasting. - Enabled data-driven decision-making for event planning.

LEADERSHIPS & INITIATIVES

Nov 2025 - Nov 2025	Participant - Top Coders Malaysia Developed a data analysis prototype using Python. Improved teamwork and problem-solving under time constraints.
Oct 2025 - Feb 2025	Active Member - Peers Club UiTM Participated in community service and campus initiatives. Developed teamwork and event coordination skills
Mar 2025 - Aug 2025	Executive - Student Representative Committee (Entrepreneurship) Organized entrepreneurship events. Managed planning, coordination, and execution of student programs

CERTIFICATIONS AND AWARDS

Certifications

- Google AI (Coursera), **Jun 2026**
- AI Ready Malaysia: Student Edition (Pepper Labs), **May 2026**
- MYFutureJobs AI+ (Pepper Labs), **May 2026**
- Python Fundamentals for Beginners (Great Learning), **Apr 2026**
- GenAI Powered Data Analytics Job Simulation (Forage), **Nov 2025**
- Microsoft Certified Power BI Data Analyst Associate (Microsoft), **Nov 2025**
- Python Programming Fundamentals (Topcoders, MDEC, DSA), **Nov 2024**
- Front-End Development - HTML (Great Learning), **Nov 2024**
- Google Analytics (Great Learning), **Nov 2024**

Awards/Activities:

- Dean's Award (UiTM), **Aug 2025**
- Peers Club Member (UiTM), **Nov 2025**
- Student Representative Committee (UiTM), **Nov 2025**
